

20.04 Electromagnetic Lifter type EMC

High holding power, Waterproof construction, Safe, Effective, According to EN13155 standard

Applications

Lifting , Handling

Construction

. For lifting of small bulk material or steel plates . Very high holding force for flat materials . Important! The whole active surface must be covered by lifted element .
 Indicated holding forces for ST37 with suitable thickness and without airgap
 Included with purchase: - 5 meter long cable
 Voltage 110 VDC
 Duty cycle 100 %

Art.-N°20.04		Diagram below: dimensions in mm			
Product	Weight	A	B	C	D
20.04.180.110	23,0	180	100	600daN	170W
20.04.245.110	40,0	245	110	900daN	210W
20.04.300.110	60,0	300	110	1250daN	360W
20.04.400.110	115,0	400	200	1750daN	500W
20.04.500.110	275,0	500	200	2500daN	930W
