

30.10 Vacuum unit with vacuum regulation type VAL

With ON/OFF switch

Heavy duty construction, Long service life, Safe, Effective

Applications

Grinding , Milling , Machining , Planning

Construction

. oil-lubricated rotary vane pumps . Starting box (to CE standards) . Vacuum switch-manually adjustable vacuum threshold value . Vacuum gauge . Air filter and strainer . Air ballasting and non-return valve . Capacities from 100 m³ to 300 m³ . Vacuum storage tank (300 & 500 liters) to compensate for possible leakage The pump will start only when the vacuum threshold value is at the minimum position (this minimum value depends on the clamping force needed for your machining).
Voltage 400 VAC

Art.-N°30.10		Diagram below: dimensions in mm
